

MARKET OPPORTUNITY.

Primary Market

2021: trading volume of decentralized exchanges

\$980B

Target Market

2021: DeFi protocols' potential revenues

\$5B

PRESENT METHODS	PROBLEMS	OUR SOLUTIONS
Yield farming	Unguaranteed payments, risk of losing principal	Fixed-rate Debonds with guaranteed repayment. ERC-3475 provides certainty and stability
AMM	High transaction fees and slippage	Multi-layered pool reduces slippage and gas fee
ERC-20 LP token	Zero utility, not tradable	Debonds are tradable on our secondary market
Securitised assets	Securitised assets do not exist yet	Debond creates the system to securitise any digital asset

OUR BUSINESS MODEL.

- Charging fees** when creating and redeeming financial products
- Market making **on secondary bond markets**
- Service fees** when creating customisable financial products

YOUR INVESTMENT OPPORTUNITY.

WE HAVE RAISED

\$1.6 million

TARGET

\$4.3 million

TOKENOMICS.
